THE WILLIAMS BROTHERS ADVANTAGE

Durability: Taber Abrasion Tested - Withstood 4,550 cycles (ASTM D4060) with a wear index of 91.1 for a durable, long-lasting finish.

Corrosion Resistance: Salt Spray Tested - Withstood 48 hours of ASTM B117 exposure with only slight edge rusting, demonstrating excellent resistance to harsh environments.

UV Resistance: Tested to ASTM G155 & G154 standards - Withstood 48 hours of continuous UV exposure with negligible visual change, ensuring color stability and finish durability in sunlit environments.

* The larger the size, more cams are used for closure.

SECTION DETAIL

This precision-flush access door for wall and ceiling installation far surpasses other doors. Laser cut from one sheet of cold rolled steel, no corner mitering – aesthetically preferred by architects and building professionals.

1. When a door increases in size, more cams are added for security in the ceiling or wall
2. For requests on clear opening after door installed, please email info@wbdoors.com
3. All installation holes must be used for proper door functionality and security
4. For custom sizes, please reach out to info@wbdoors.com
5. Clear opening may be impeded by structural or functional parts on door
6. Drawings of any door can be requested through info@wbdoors.com
