SECTION DETAIL

The one of a kind exterior access door is galvannealed ** steel, rainguard louvers, and includes two applications of gasket. Closed cell neoprene sponge SC42 W/PSA stripping gasket on inside and back of door for outdoor applications [certain saltwater areas might not be compatible].

1. When a door increases in size, more cams are added for security
2. For requests on clear opening after door installed, please email info@wbdoors.com
3. All installation holes must be used for proper door functionality and security
4. For custom sizes, please reach out to info@wbdoors.com
5. Clear opening may be impeded by structural or functional parts on door
6. Drawings of any door can be requested through info@wbdoors.com

**** Galvannealed steel:** The preferred coated steel for use in architectural applications.

- Coated in zinc, heated to over 1000° F so iron is pulled from steel.
- Iron mixes with zinc coating, making it harder, more scratch-resistant, uniform in appearance.
- Galvannealed steel bonds better with paint, and better for welding.
