

BABA Compliance Statement

Williams Brothers Corporation of America is proud to confirm that our GP-LV 103 Series Premium Access Doors with Louvers/Vents are Build America, Buy America Act (BABA) compliant.

Manufactured with domestic steel and assembled in our Virginia facility, this series fully meets BABA requirements by supporting U.S. manufacturing, job creation, and infrastructure investment. Architects, contractors, and builders who specify the GP-LV 103 can do so with confidence, knowing they are selecting a product that not only promotes airflow and durability, but also directly supports American workers and communities.

- Made in the USA quality, proudly fabricated in Virginia
- Compliance with BABA standards, ensuring eligibility for federally funded projects
- Trusted performance in a louvered access door featuring a heavy-duty 14 gauge steel door with 16 gauge frame, fully or semi-concealed offset hinge, stainless steel cam latches, optional insect net and weather gasket and a paintable baked enamel finish all tested and backed by decades of manufacturing excellence

The GP-LV 103 Series is more than just a premium access solution. It is a product designed to align with today's project requirements for compliance, performance, ventilation, and American craftsmanship.

- Access doors
- Floor doors
- Roof hatches
- Ladders
- Safety Railings
- Corner Guards
