

SUBMITTAL SHEET

WALLS or CEILINGS

DESCRIPTION

The **WB DWAL 1000 MAP** is a lightweight ABS plastic access panel offering clean, concealed access to utilities behind drywall or ceilings. Its flush-mount L-bead frame finishes seamlessly into the surface, while the touch-latch provides tool-free operation. Made from high-impact ABS, it is corrosion-proof, washable, and moisture-resistant—ideal for both standard interiors and humid environments. Installation is quick with compatible adhesives (acrylic, neutral, or acetic silicone), eliminating visible screws and reducing labor time.

FEATURES

- High-impact ABS - durable, lightweight, non-corrosive
- Click-clack push-latch - no tools required
- Flush L-bead frame - tape and finish for seamless look
- Adhesive installation - no visible fixings
- Paintable smooth white surface
- Low-maintenance - resists rust, mildew, and warping

APPLICATIONS

- Residential - plumbing, valves, electrical, low-voltage
- Commercial - HVAC, electrical, security, communications
- Institutional - schools, hospitals, public buildings
- Moisture-prone areas - bathrooms, kitchens, basements

FINISHING

Leave in smooth white finish or paint to match surroundings. Apply drywall compound over L-bead flange for a fully concealed appearance.
